# LS clears Motor Vehicles Amendment Bill

**TIMES NEWS NETWORK**  
New Delhi: Lok Sabha on Tuesday passed the Motor Vehicles (Amendment) Bill, a legislation aimed at reducing road fatalities, weeding out corruption in transport sector and promoting use of technology to regulate traffic. Now it will be introduced in

the Rajya Sabha. Sources said the government is hopeful of the bill going through in the Upper House with JD(U) and AIADMK being part of the treasury. TMC has already announced it would oppose the bill charging that the proposed legislation would step into the rights of states. Though the bill was earli-

er passed by the Lok Sabha in April 2017, it could not get the Upper House's nod. Opposition parties, particularly AIADMK, DMK and TMC had opposed it for two provisions - registration of vehicles at dealers end instead of at RTO and empowering Centre to come out with a "National Transportation Policy" for es-

establishing a framework for granting permits.  
**Govt tables bills on labour reforms:** The government introduced two bills on labour reforms amid strong objections from the opposition which said they concerned the interests of workers and should be vetted by a parliamentary standing committee.
